

1 What is claimed is:

2
3 1. A washing machine comprising:

4 a cabinet;

5 a tub;

6 a drum; and

7 a detergent box assembly comprising:

8 a top plate provided on the cabinet and having an opening at one

9 side;

10 a detergent box provided to the opening and having a plurality of

11 first bosses protruding upward to hold screws, respectively; and

12 a cover frame provided to a topside of the detergent box and having

13 a plurality of second bosses protruding downward to hold the screws,

14 respectively.
15

16 2. The washing machine as claimed in claim 1, wherein one end of the second

17 boss is inserted in an upper portion of the corresponding first boss.
18

19 3. The washing machine as claimed in claim 1, wherein an interior screw is

20 formed in a lower portion of each of the first bosses to be coupled to the corresponding screw.
21

22 4. The washing machine as claimed in claim 1, wherein a bend part bent

23 downward is further provided to an edge of the opening.
24

25 5. The washing machine as claimed in claim 4, wherein a plurality of hooks are
26 formed at both sides of the detergent box and a plurality of holes are formed at the bent part to
27 be coupled to the hooks, respectively.

28
29 6. The washing machine as claimed in claim 5, wherein a plurality of the hooks
30 ad the holes are formed in front and rear sides of the detergent box.

31
32 7. The washing machine as claimed in claim 1, wherein a cover for covering the
33 detergent box is rotatably installed at one side of the cover frame.

34
35 8. A washing machine comprising:

36 a cabinet;

37 a tub;

38 a drum; and

39 a detergent box assembly comprising:

40 a top plate provided on the cabinet and having an opening at one
41 side;

42 a detergent box loaded on the opening to be hung by a hanging
43 means;

44 a cover frame having a rim loaded on an upper surface of a
45 neighbour part of the opening; and

46 a bent part bent downward from an edge of the opening.

47
48 9. The washing machine as claimed in claim 8, the hanging means comprising:

49 a plurality of hooks protruding from sides of the detergent box; and
50 a plurality of holes formed at the bent part to have the hooks inserted therein,
51 respectively.

52
53 10. The washing machine as claimed in claim 8, further comprising:
54 a plurality of first bosses protruding upward from an upper surface of the detergent
55 box to hold screws, respectively; and
56 a plurality of second bosses protruding downward from a lower surface of the cover
57 frame to hold the screws, respectively.

58
59 11. The washing machine as claimed in claim 10, wherein one end of the second
60 boss is inserted in an upper portion of the corresponding first boss.

61
62 12. The washing machine as claimed in claim 10, wherein an interior screw is
63 formed in a lower portion of each of the first bosses to be coupled to the corresponding screw.

64
65 13. The washing machine as claimed in claim 10, wherein the neighbour part of
66 the opening is clamped between the detergent box and the cover frame.

67
68 14. The washing machine as claimed in claim 8, wherein a cover for covering the
69 detergent box is rotatably installed at one side of the cover frame.

70
71 15. The washing machine as claimed in claim 8, wherein a plurality of storing
72 parts for storing detergent are formed in the detergent box.
